G, VENKATASUBRAMANIAM, Jt. Secy

(Department of Legal Affairs)

New Delhi, the 23rd January 1969

G.S.R. 171 (Contract/Amendment No. 17).—In exercise of the powers conferred by clause (1) of article 299 of the Constitution the President hereby directs that the following amendments shall be made in the notification of the Government of India in the Ministry of Law (Department of Legal Affairs) No. G.S.R. 585 dated the 1st February, 1966 relating to the execution of contracts and assurances of property, namely:—

In the said notification:

1. Under Part I, in the proviso to Head 'A' of item 1, after the words "in the case of" and before the words "The Central Public Works Department", the words "Civil Aviation Department" shall be inserted.

2. In Part III which relates to the Ministry of Defence, in item 2 of Head 'C', in the list of officers authorised to execute contracts & other instruments, after the words "Independent Sub-Areas" and before the words "Brigades Stations", the words "Sub-Area Commander" shall be inserted.

3. In Part XI which relates to the Ministry of Information & Broadcasting, in item 4, for the existing clause (iii) and (iv), the following clauses shall be substituted, namely:—

"(iii) Contracts and other instruments relating to exhibitions;

(a) upto Rs. 25,000/- in each case by the Deputy Director (Exhibitions)

(b) upto Rs. 5,000/- in each case by the Exhibition Officer.

(iv) Contracts relating to production or display of various kinds of out-door publicity material;

(a) upto Rs. 10,000/- in each case; by the Production Manager (out-door publicity).

(b) upto Rs. 1,000/- in each case; by the Assistant Production Manager (out door Publicity).

4 In Part XIX which relates to the Ministry of Supply and Technical Development, in Head "C" for the existing clause (i), the following clause shall be substituted, namely:—

"(i) Execution of indemnity bonds for the issue of duplicate drafts, acceptance of indemnity bonds relating to disbursement of provident fund moneys to a person on behalf of minor(s); by the Pay and Accounts Officers".

5. In Part XXI which relates to the Ministry of Works & Housing:—

(i) in item 2(a), after clause (ix), the following clause shall be added, namely:—

"(x) "Undertaking guarantee to the payment of water and electric charges to the Municipal Committee/Municipal Corporation/Electricity Boards/Local Licensees/Local bodies as may be concerned, in case of default, with respect to buildings allotted by Govt. on behalf of the Govt. servants (including Gazetted Officers) employed in the Govt. of India, Presses and Branches, who are in occupation of Govt accommodation and execution of contracts and instruments relating to supply of water and electricity for the running of the Presses/Branches or for the use of the staff; by the Head of the Govt. Press and Branch concerned."

(ii) in item 4, after clause (xii), the following clause shall be added, namely:—

"(xiii) Bonds executed by officers of the C.P.W.D. sent on training abroad; by the Director of Administration in the Central P.W.D."

6. In Part XXII which relates to the Department of Atomic Energy, after Head the following Head shall be added, namely:—

"K. In the case of Arvi Satellite Communication Earth Station Project.

(i) All contracts and/or instruments relating to works of all kinds;

(ii) Service agreements and security bonds of cashiers and other Govt. servants or their sureties for the performance of their duties or the due accounting of the money or other property received by virtue thereof;

(iii) Security bonds for the due performance and completion of works;

(iv) Agreements for hire of buildings;
by the Project Administrator, Arvi Satellite Communication Earth Station Project.

Addl. Legal Adviser.

DEPARTMENT OF SOCIAL WELFARE

New Delhi, the 31st December 1968

G.S.R. 172.—In exercise of the powers conferred by the proviso to article 309 of the Constitution, the President hereby makes the following rules further to amend the Central Braille Press (Class III Posts) Recruitment Rules, 1961, published with the notification of the Government of India, in the Ministry of Education No. G.S.R. 1202, dated the 22nd September, 1961, namely:—

1. (1) These rules may be called the Central Braille Press (Class III posts) Recruitment (Amendment) Rules, 1968.

(2) These rules shall come into force on the date of their publication in the Official Gazette.

2. In the Schedule to the Central Braille Press (Class III posts) Recruitment Rules, 1961 the items "Upper Division Clerk" and "Store-keeper" and the entries relating thereto shall be omitted.

[No. F. 1/14/68-SWL.]

G.S.R. 173.—In exercise of the powers conferred by the proviso to article 809 of the Constitution, the President hereby makes the following rules further to amend the Training Centre for the Adult Blind (Class III posts) Recruitment Rules, 1964, published with the notification of the Government of India, in the Department of Social Security No. G.S.R. 1175, dated the 22nd August, 1964, namely:—

1. (1) These rules may be called the Training Centre for the Adult Blind (Class III posts) Recruitment (Amendment) Rules, 1968.

(2) These rules shall come into force on the date of their publication in the Official Gazette.

2. In the Schedule to the Training Centre for the Adult Blind (Class III posts) Recruitment Rules, 1964, the items "Occupational Therapist, Storekeeper (Workshop), Storekeeper General, Lower Division Clerk, Upper Division Clerk" and "Accountant-cum-Head-Clerk" and the entries relating thereto shall be omitted.

[No. F. 1-14/68-SWL.]

G.S.R. 174.—In exercise of the powers conferred by the proviso to article 809 of the Constitution, the President hereby makes the following rules further to amend the Model School for Blind Children (Class III posts) Recruitment Rules, 1963 published with the notification of the Government of India in the Ministry of Education No. G.S.R. 949 dated the 25th April 1964, namely:—

1. These rules may be called the Model School for Blind Children (Class III posts) Recruitment (Amendment) Rules, 1968.

2. These rules shall come into force on the date of their publication in the Official Gazette.

3. In the Schedule to the Model School for Blind Children (Class III posts) Recruitment Rules, 1964, the items "U.D.C." and "L.D.C. including Steno-Typist" and the entries relating thereto shall be omitted.

[No. F. 1-14/68-SWL.]

G.S.R. 175.—In exercise of the powers conferred by the proviso to article 809 of the Constitution, the President hereby makes the following rules regulating the method of recruitment to Class III Clerical posts in the National Centre for the Blind, namely:—

1. **Short title and commencement.**—(1) These rules may be called the National Centre for the Blind (Class III Clerical posts) Recruitment Rules, 1968.

(2) They shall come into force on the date of their publication in the Official Gazette.

2. **Application.**—These rules shall apply for recruitment to the posts specified in column 1 of the Schedule annexed hereto.

3. **Number, classification and scale of pay.**—The number of posts, their classification and the scales of pay attached thereto shall be as specified in columns 2 to 4 of the said Schedule.

4. **Method of recruitment, age limit and other qualifications.**—The method of recruitment, age limit, qualifications and other matters relating to the said posts shall be as specified in columns 5 to 13 of the Schedule aforesaid.

Provided that the upper age limit prescribed for direct recruitment may be relaxed in the case of candidates belonging to Scheduled Castes, Scheduled Tribes and other special categories in accordance with the orders issued by the Central Government from time to time:

Provided further that ten per cent of the vacancies in the posts of the Lower Division Clerk (including stenotypist of the said Schedule shall be filled up by recruitment through a departmental examination from among Class IV employees (borne on regular establishment), who

- (a) have passed the matriculation or equivalent examination;
- (b) are not more than 45 years of age in the case of Scheduled Castes and Scheduled Tribes and 40 years of age in the case of others on the date of the examination; and
- (c) have completed 5 years of continuous service as such on the date of the examination.

NOTE.—In case where sufficient number of candidates are not available in any year for recruitment under the second proviso to this rule, the vacancies which remain to be filled up by such recruitment shall not be carried over to the subsequent year.

5. Disqualification.—(a) No person, who has more than one wife living or who, having a spouse living marries in any case in which such marriage is void by reason of its taking place during the lifetime of such spouse, shall be eligible for appointment to the post.

(b) No woman, whose marriage is void by reason of the husband having a wife living at the time of such marriage or who has married a person who has a wife living at the time of such marriage shall be eligible for appointment to the posts:

Provided that the Central Government may, if satisfied that there are special grounds for so ordering, exempt any person from the operation of this rule.

6. Power to relax.—Where the Central Government is of the opinion that it is necessary or expedient so to do, it may by order for reasons to be recorded in writing relax any of the provisions of these rules with respect to any class or category of persons.

(Department of Agriculture)

New Delhi, the 20th January 1969

G.S.R. 185.—In exercise of the powers conferred by the proviso to article 309 of the Constitution the President hereby makes the following rules to amend the Southern Forest Rangers College and Research Centre, Coimbatore and Forest Research Laboratory, Bangalore (Class III and Class IV posts) Recruitment Rules, 1963, namely:—

1. (1) These rules may be called the Southern Forest Rangers College and Research Centre, Coimbatore and the Forest Research Laboratory, Bangalore, (Class III and Class IV posts) Recruitment (Amendment) Rules, 1969.
- (2) They shall come into force on the date of their publication in the Official Gazette.
2. In Part A of the Schedule to the Southern Forest Rangers College and Research Centre Coimbatore and Forest Research Laboratory, Bangalore (Class III and Class IV) posts, Recruitment Rules, 1963, pertaining to the Southern Forest Rangers College and Research Centre, Coimbatore, after Serial No. 27 and the entries relating thereto the following Serial No. and entries shall be inserted namely:—

1	2	3	4	5	6	7	8
28	Insectary Assistant	1	G.C.S. Class III Non-Gazetted (Non-ministerial)	Rs. 110—4—150—EB —4—170—5—180—EB —5—200	Not applicable	18—25 years	Pre-University certificate passed (or) equivalent certificate with 3 years experience in the line.

[No. 5-3/64-F.]

S. N. TULSIANI, Under Secy.

(Department of Agriculture)

New Delhi, the 25th January 1969

G.S.R. 186.—In exercise of the powers conferred by the proviso to article 309 of the Constitution, the President hereby makes the following rules regulating the method of recruitment to Class II post of Stores Officer Locust Warning Organisation a sub-office of the Directorate of Plant Protection Quarantine and Storage, namely :—

1. Short title and commencement.—(1) These rules may be called the Directorate of Plant Protection Quarantine and Storage (Stores Officer, L.W.O.) Recruitment Rules, 1968.

(2) They shall come into force on the date of their publication in the Official Gazette.

2. Application.—These rules shall apply for recruitment to the post as specified in column 1 of the Schedule annexed hereto.

3. Number, classification and scale of pay.—The number of the said post, its classification and the scale of pay attached thereto shall be as specified in columns 2 to 4 of the said Schedule.

4. Method of recruitment, age-limit, other qualifications, etc.—The method of recruitment to the said post, age limit, qualifications for recruitment and other matters connected therewith shall be as specified in columns 5 to 13 of the Schedule aforesaid :

5. Disqualifications.—(1) No person, who has more than one wife living or who, having a spouse living, marries in any case in which such marriage is void by reason of its taking place during the life-time of such spouse, shall be eligible for appointment to the said post, and

(2) No woman, whose marriage is void by reason of the husband having a wife living at the time of such marriage, or who has married a person who has a wife living at the time of such marriage, shall be eligible for appointment to the said post :

Provided that the Central Government may, if satisfied that there are special grounds for so ordering, exempt any person from the operation of this rule.

6. Power to relax.—Where the Central Government is of opinion that it is necessary or expedient so to do, it may, by order, for reasons to be recorded in writing and in consultation with Union Public Service Commission relax any of the provisions of these rules with respect to any class or category of persons or posts.

Recruitment rules for the post of Stores Officer, Locust Warning Organisation, a Sub-office of the Directorate of Plant Protection Quarantine and Storage, Department of Agriculture (in Ministry of Food, Agriculture, C. D. and Cooperation).

Name of Post	No. of Posts	Classification	Scale of Pay	Whether Selection Post or non-Selection Post	Age for direct recruits	Educational and other qualifications required for direct recruits	Whether age & educational qualifications prescribed for direct recruits will apply in the case of Promotees	Period of Probation if any	Method of rectt. whether by direct rectt. or by promotion or by deputation/transfer & percentage of the vacancies to be filled by various methods	In case of rectt. by promotion/ deputation/ transfer, from which promotion/ deputation transfer to be made	If a DPC exists, what is its composition	Circumstances in which U.P.S.C. is to be consulted in making rectt

[No. 5-4/68-PPS.]

G.S.R. 187.—In exercise of the powers conferred by the proviso to article 309 of the Constitution, the President hereby makes the following rules regulating the method of recruitment to the post of Field Investigator in the Directorate of Plant Protection Quarantine and Storage, namely :—

1. Short title and commencement.—(1) These rules may be called the Directorate of Plant Protection Quarantine and Storage (Class III Posts) Recruitment Rules, 1968.

(2) They shall come into force on the date of their publication in the Official Gazette.

2. Application.—These rules shall apply for recruitment to the post as specified in column I of the Schedule annexed hereto.

3. Number, classification and scale of pay.—The number of the said posts, its classification and the scale of pay attached thereto shall be as specified in columns 2 to 4 of the said Schedule.

4. Method of recruitment, age-limit and other qualifications.—The method of recruitment to the said posts, the age limit, qualifications for recruitment and other matters connected therewith shall be as specified in columns 5 to 13 of the Schedule aforesaid :

5. Disqualification.—(1) No person, who has more than one wife living or who, having a spouse living, marries in any case in which such marriage is void by reason of its taking place during the life-time of such spouse, shall be eligible for appointment to the said post.

(2) No woman, whose marriage is void by reason of the husband having a wife living at the time of such marriage, or who has married a person who has a wife living at the time of such marriage, shall be eligible for appointment to the said post :

Provided that the Central Government may, if satisfied that there are Special grounds for so ordering, exempt any person from the operation of this rule.

6. Power to relax.—Where the Central Government is of opinion that it is necessary or expedient so to do, it may, by order, for reasons to be recorded in writing relax any of the provisions of these rules with respect to any class or category of persons or posts.

SCHEDULE

Recruitment Rules for the post of Field Investigator in the Directorate of Plant Protection Quarantine and Storage.

Name of Post	No. of Posts.	Classifications.	Scale of pay.	Whether selection post or non-selection Post	Age for direct recruits.	Educational and other qualifications required for direct recruits.	Whether age and educational qualifications prescribed for direct recruits will apply in the case of promotees.	Period of probation if any	Method of rectt. whether by direct rectt or by promotion or by deputation/ transfer & percentage of the vacancies to be filled by various methods.	In case of rectty. by promotion/ deputation/ transfer, grades from which promotion/ deputation/ transfer to be made.	If a DPC exists, what is its composition	Circumstances in which U.P.S.C. is to be consulted in making rectts.

P. I. DAVID, Under Secy.

MINISTRY OF TRANSPORT AND SHIPPING

MERCHANT SHIPPING

New Delhi, the 22nd January 1969

G.S.R. 188.—The following draft of certain rules which the Central Government proposes to make in exercises of the powers conferred by sub-section (1) of section 331A, sub-section (5) of section 332 and section 458, of the Merchant Shipping Act, 1958 (44 of 1958), and in supersession of the Indian Merchant Shipping (Carriage of Grain) Rules, 1964, is hereby published, as required by sub-section (5) of section 332 of the said Act, for the information of all persons likely to be affected thereby and notice is hereby given that the said draft will be taken into consideration on or after the tenth day of March, 1969.

Any objections or suggestions which may be received from any person with respect to the said draft before the date so specified will be taken into consideration by the Central Government.

1. Short title, commencement and application.—(1) These rules may be called the Merchant Shipping (Carriage of Grain) Rules, 1969.

(2) They shall come into force at once.

(3) Unless expressly provided otherwise, they shall apply to—

(a) all Indian ships;

(b) ships other Indian ships—

(i) when they are loaded with grain at any port or place in India or within the territorial waters of India; or

(ii) when they enter any port or place in India or come within the territorial waters of India laden with grain.

2 Definitions.—In these rules, unless the context otherwise requires—

(i) 'Act' means the Merchant Shipping Act, 1958 (44 of 1958);

(ii) 'compartment' means a hold, or cargo space bounded by bulkheads at each end and having decks above and below;

(iii) 'feeders' means feeders constructed in accordance with the requirements specified in the First Schedule;

(iv) 'grain' includes wheat, maize or corn, oats, rye, barley, rice, pulses and seeds;

(v) 'metacentric height' means the distance between the transverse meta-centre (M) and the centre of gravity (G) corrected for the free surface effects of liquids in tanks, and, for the purposes of rule 5, for the free surface effects of grain in feeders;

(vi) 'Schedule' means a schedule to these rules;

(vii) 'shifting boards' means shifting boards constructed in accordance with the requirements specified in the Second Schedule;

(viii) 'shores' means shores conforming to the requirements specified in the Third Schedule;

(ix) 'stays' means stays the fitting of which conforms to requirements of the Fourth Schedule;

(x) 'upright' means uprights, the fitting of which conform to the requirements of the Fifth Schedule.

3. Trimming.—In compartments entirely with bulk grain, the grain shall be trimmed so as to fill all the spaces between the beams and in the wings and ends

(2) In compartments partly filled with bulk grain, the grain shall be levelled except where it is impracticable to do so.

4. **Stowage of full compartment.**—(1) Except as hereinafter provided, any compartment which is entirely filled with bulk grain shall be divided either—

- (a) by a longitudinal bulkhead or shifting boards in line with or not more than five per cent. of the moulded breadth of the ship from the centre line, or
- (b) by longitudinal bulkhead or shifting boards of the centre line of the ship;

Provided that the distance between them does not exceed sixty per cent of the moulded breadth of the ship and that, in the latter case, trimming hatches of suitable size suitably placed are provided in the wings at longitudinal intervals of not more than 7.62 metres with end trimming hatches placed not more than 3.66 metres from transverse bulkheads.

(2) In every case, the longitudinal bulkheads or shifting boards shall be properly constructed and fitted graintight with proper fittings between the beams.

(3) (a) In any compartment which is a hold, the longitudinal bulkheads or shifting boards shall extend downwards from the underside of the deck to a distance of at least one-third of the depth of the hold or 2.44 metres, whichever is greater.

(b) In compartments in 'tween decks and superstructures or in any compartment other than a hold, such longitudinal bulkheads or shifting boards shall extend from deck to deck.

(4) The provisions of sub-rules, (1), (2) and (3) shall not apply to—

- (a) a compartment other than a hold, if bagged grain or other suitable cargo therein is tightly stowed in the wings to a width, at any point, of not less than twenty per cent. of the corresponding breadth of the ship;
- (b) parts of the compartments where the maximum breadth of the deckhead within such parts does not exceed one-half of the moulded breadth of the ship;
- (c) except in the case of compartments loaded with bulk linseed, those parts of a compartment which, in ships which maintain throughout the voyage a metacentric height of not less than 0.31 metres in the case of single deck or two deck ships and not less than 0.36 metres in the case of other ships, are—
 - (i) below and within 2.13 metres of a feeder, but only below or abreast of a hatchway, if that feeder contains, or all the feeders collectively feeding a compartment, contain, not less than five per cent. of the quantity of grain carried in the compartment which is fed;
 - (ii) below or abreast of a hatchway where the bulk grain beneath the hatchway is trimmed in the form of a saucer hard up to the deckhead beyond the hatchway to a depth in the centre of the saucer of not less than 1.83 metres measured below the deck line and is topped off with bagged grain or other suitable bagged cargo so as to fill the hatchway and the saucer below and is stowed tightly against the deckhead, the longitudinal bulkheads, the hatchway beams and the hatchway side and end coamings.

5. **Feeders.**—(1) Any compartment which is entirely filled with bulk grain shall be provided with feeders which shall be constructed in accordance with the requirements of the First Schedule or with such other requirements that the Central Government, or any other officer authorised by the Central Government in this behalf, may prescribe from time to time by notification in the Official Gazette.

(2) Such feeders shall be so placed as to ensure a free flow of grains to all parts of the compartment containing bulk grain;

Provided that feeders shall not be required—

- (a) when bulk grain is carried in deep tanks which are primarily constructed for the carriage of liquids and in which the greatest width

does not exceed one-half of the moulded breadth of the ship, or which are divided by one or more permanent steel longitudinal divisions sited not more than one-half of the moulded breadth of the ship apart, subject to the condition that the tanks and tank lids are securely closed;

- (b) when bulk grain is trimmed in the form of a saucer hard up to the deck head beyond the hatchway to a depth in the centre of the saucer of not less than 1.83 metres measured below the deck line and is topped with bagged grain or other suitable bagged cargo so as to fill the hatchway and the saucer below and is stowed tightly against the deck head, the longitudinal bulkheads, the hatchway beams and the hatchway side and end coamings.

(3) Subject to the provisions of sub-clause (i) of clause (c) of sub-rule (4) each feeder shall contain not less than two per cent of the quantity of grain carried below deck level in that part of the compartment which it feeds.

(4) Each feeder shall be fitted with a longitudinal bulk-head or shifting boards extending to the full depth of the feeder.

Provided that such longitudinal bulkhead or shifting boards need not be fitted in a single deck or two deck ships which maintains, throughout the voyage, a metacentric height of 0.31 metres, or any other ship which maintains, throughout the voyage, a metacentric height of 0.36 metres,—

- (i) if the feeder contains, or all feeders collectively feeding a compartment contain, not less than five per cent of the quantity of grain carried below deck level in that compartment;
- (ii) if the sinkage of grain amounting to two per cent of the volume of the compartment fed would not cause the free grain surface to fall below the lower extremities of the feeder or feeders at deck level;
- (iii) if a shift of the free grain surface to an angle of 12° to the horizontal would not cause that surface to fall below the lower extremities of the feeder or feeders at deck level.

Explanation.—For the purposes of this sub-rule, the effects of the additional free grain surfaces within the feeders due to the omission of centre-line divisions shall be taken into account in calculating the metacentric height referred to in clause (c) of sub-rule (4) of rule 4. The correction to the metacentric height to each feeder shall be made in accordance with the formula set out in the Sixth Schedule.

6. **Common leading.**—In any ship when compartments above one another are entirely to be filled with grain, such compartments may be loaded as one compartment subject to the following conditions, namely:—

- (a) except as provided for in clause (c) of sub-rule (4) of rule 4. longitudinal bulkhead or shifting boards shall be fitted—
 - (i) deck to deck in the 'tween decks of a two deck ship;
 - (ii) for the upper one-third part of the total depth of the compartments loaded in common, in the case of all other ships.
- (b) openings each of at least 0.37 sq. metres shall be provided in the wings of the deck immediately below the upper-most deck of the compartments loaded in common and forward and aft of the main hatchway. Such openings shall provide, in combination with the main or other hatchways, a feeding distance of not more than 2.44 metres measured in a fore and aft line; and
- (c) the provisions of rules 5 and 7 shall apply to compartments loaded in common as if they were one single compartment.

7. **Trimming and bagging of end compartments.**—(1) When the distance, measured in fore and aft line from any part of a hold or compartment to the nearest feeder, exceeds 7.62 metres from the nearest feeder the bulk grain in the end spaces beyond 7.62 metres shall be levelled off at a depth of at least 1.83 metres below the deck and the end spaces filled with bagged grain built upon a suitable platform.

(2) Such platform shall be constructed in accordance with the requirements of rule 8.

8. Stowage of partly filled compartments.—(1) Except as hereinafter provided any compartment which is partly filled with bulk grain shall be divided either by—

- (a) (i) a longitudinal bulkhead; or
- (ii) shifting boards, in line, with, or not more than five per cent of, the moulded breadth of the ship from the centre line; or
- (b) (i) two or more longitudinal bulkheads; or
- (ii) shifting boards; off the centre line of the ship:

Provided that the distance between them does not exceed sixty per cent. of the moulded breadth of the ship.

(2) In every case the longitudinal bulkheads or shifting boards shall be properly constructed and shall extend from the bottom of the compartment to a height of not less than 0.61 metres above the surface of the bulk grain.

(3) The provisions of sub-rules (1) and (2) shall not apply to—

- (a) a compartment partly filled with grain other than linseed where—
 - (i) a metacentric height of not less than 0.31 metres is maintained throughout the voyage in the case of a single deck or two deck ship; or
 - (ii) a metacentric height of not less than 0.36 metres is maintained throughout the voyage in the case of any other ship;
- (b) a compartment, which is a hold, if the bulk grain contained therein does not exceed one-third of the capacity of the hold or where such a hold is divided by a shaft tunnel, one-half of the capacity of that hold;
- (c) a compartment other than a hold, if bagged grain or other suitable cargo therein is tightly stowed in the wings to a width at any point, of not less than twenty per cent of the corresponding breadth of the ship;
- (d) these parts of a compartment where the maximum breadth of a deck head within such parts does not exceed one-half of the moulded breadth of the ship.

(4) When any compartment is partly filled with bulk grain, the bulk grain shall be levelled and topped off with bagged grain or other suitable cargo tightly stowed and extending to a height of not less than 1.22 metres above the top of the bulk grain within these parts of the compartment which are divided by a longitudinal bulkhead or shifting boards, and to a height of not less than 1.52 metres in those parts of a compartment which are not so divided:

Provided that in the case of a compartment which is a hold in which the bulk grain does not exceed one-third of the capacity of the hold or where such a hold is divided by a shaft tunnel, one-half of the capacity of that hold, the depth of the bagged grain or other suitable cargo shall be not less than 1.22 metres.

(5) The bagged grain or other suitable cargo shall be supported on suitable platforms laid over the whole surface of the bulk grain and such platforms shall consist of—

- (a) bearers spaced not more than 1.22 metres apart and 25 millimetre boards laid thereon spaced not more than 0.10 metres apart; or
- (b) strong separation cloths with adequate overlapping.

9. Limitation on number of partly filled compartments.—(1) Except in the case of ships in which a metacentric height of not less than 0.31 metres in the case of single deck or two deck ships or of not less than 0.36 metres in the case of other ships is maintained throughout the voyage, not more than two compartments may be partly filled with bulk grain except that other compartments may be partly

filled with bulk grain if they are filled up to the deck head with bagged or other suitable cargo.

(2) For the purposes of this rule—

- (a) superimposed 'tween decks' shall be regarded as separate compartments, and separate from any lower hold below them;
- (b) feeders and partly filled spaces referred to in clause (c) of rule 10 shall not be regarded as compartments; and
- (c) holds or compartments provided with one or more grain tight longitudinal sub-divisions shall be regarded as one hold or compartment.

10. Bulkgrain in 'tween decks' and superstructures.—Bulk grain shall not be carried in compartments which are in a superstructure of a ship, or in the 'tween decks' of a two deck ship, or in the uppermost 'tween decks' of a ship having more than two decks except under the following conditions, namely:—

- (a) the bulk grain or other cargo shall be so stowed as to ensure maximum stability;
- (b) in all cases either a metacentric height of not less than 0.31 metres in the case of single deck or two decks ships or of not less than 0.36 metres in the case of other ships is maintained throughout the voyage or, alternatively, the aggregate quantity of bulk grain or other cargo carried in such compartments does not exceed twenty eight percent by weight of the remaining cargo and the Master is satisfied that the ship will have adequate stability throughout the voyage:

Provided that the limitation of twenty-eight percent specified in this clause will not apply when the grain cargo carried above deck or in the upper most 'tween deck' spaces consists of oats, barley or cotton seeds;

- (c) the deck area of any part of such compartments which contains bulk grain and which is only partly filled does not exceed 93 square metres; and
- (d) all such compartments in which bulk grain is stowed are either sub-divided by transverse bulk-heads at intervals of not more than 30.50 metres in the case of other ships is maintained throughout the filled with bagged grain or other suitable cargo.

11. Stowage of specially suitable ships.—(1) The provisions of rules 4 to 10, both inclusive, shall not apply to any ship in which the effect of any transverse shift of grain is limited by means of longitudinal divisions or other constructional feature to such an extent that the list resulting from a shift of grain, calculated on the basis of the assumptions made in sub-rule (2), does not exceed 5 degrees at any stage of the voyage.

(2) In calculating the list of a ship referred in sub-rule (1), assumption shall be made that the grain surfaces, which are levelled or which are constructed by a boundary having an angle or inclination of less than 30 degrees to the horizontal, settle 2 percent by volume and more through an angle of 12 degrees with their original surface of 8 degrees if overstowed in accordance with the provisions of sub-rules (4) and (5) of rule 8.

(3) Every such ship to which the provisions of rules 4 to 10, both inclusive, do not apply shall carry a grain loading plan and sufficient stability information to show that for the stowage arrangements to be adopted, the calculated list referred to in sub-rule (1) will not be exceeded.

12. Water ballast tanks.—Double bottom tanks which are taken into account in calculating the metacentric height referred to in rules 4, 5, 8, 9 and 10, or in calculating the list referred to in rule 11, shall have adequate watertight longitudinal sub-division except where the width of the tank measured at half length does not exceed 60 percent of the ship's moulded breadth.

13. Bagged grain.—Bagged grain shall be carried in sound bags which shall be securely closed and, except as provided in sub-item (iv) of item (b) of the proviso to rule 16, well filled.

14. Loading of home-trade ships.—Except in regard to the stowage of bulk grain in the 'tween decks' of a two deck ship or the upper most 'tween decks' of a ship having more than two decks the foregoing provisions of these rules shall not

apply to any home-trade ship in which bulk grain is carried, subject to the compliance with the provisions of rules 15 and 16.

Explanation.—For the purposes of these rules any ship partially lightened at a port or place in India for a voyage to any other port or place in India shall be treated as a home-trade ship.

15. Stowage of full compartments in home-trade ships.—In home-trade ships, stowage of any compartment which is entirely filled with bulk grain shall be as follows:—

- (a) either the hatchway shall contain not less than 4 percent of the quantity of bulk grain carried below deck level in the compartment which it feeds or, alternatively, the bulk grain beneath the hatchway shall be trimmed in the form of a saucer and topped off with bagged grain or other suitable bagged cargo in the manner specified in sub-clause (ii) of clause (c) of sub-rule (4) of rule 4, except that the compartment may not be fitted with bulkheads or shifting boards in respect of any ship making a voyage during seasons of fair weather as defined in the Seventh Schedule.

16. Stowage of partly filled compartments of home-trade ships.—In home-trade ships, the stowage of any compartment which is partly filled with bulk grain shall comply with the provisions of rule 8:

Provided that not more than two compartments may be stowed in either of the following ways, namely:—

- (a) the bulk grain shall be levelled off and overstowed with at least two tiers of bagged grain laid on separation cloths, or with other suitable cargo supported on platforms or separation cloth; or
- (b) (i) the bulk grain shall be divided from empty space in the hold by one of the following methods, namely:—

Method 1.—A transverse vertical wooden grain tight bulk head shall be fitted in the fore part of the compartment in such a way as to reduce the capacity of the compartment to that required for the stowage of the grain.

Method 2.—A strongly and tightly constructed transverse vertical bulk-head of bagged grain shall be used. The bulk head shall contain sufficient rows of bags laid in the fore and aft direction to enable it to withstand the effects of pitching and scending during the voyage. Its foundation shall be on the floor of the compartment and shall consist of not less than four rows of bags. These requirement of four rows may be narrowed to two rows of bags at the top provided that only two rows are considered to be adequate for providing and maintaining the required support.

Method 3.—A sloping bulkhead shall be constructed of stepped bags of grain. The bags shall be packed tightly together and bedded into the grain in a fore and aft direction. They shall lie horizontally and overlap not less than one-half of their length. The lowest tier shall be so arranged as to rest upon a firm and solid foundation and shall be placed on the floor of the compartment or on separation cloths laid on the levelled grain surface reaching to one of the ship's transverse bulkheads. The bags shall be well locked into the frames at the ship's side and a double tier shall be laid at the sides of the compartment. The bulkheads shall be secured in the hatchway and the top tier of bags shall be so wedged tightly against the web beams or the hatch end coamings that they will be secured against fore and aft movement.

- (ii) The bulk grain shall be stowed in such a way as to confine its loose surface within the limits of the hatchway in such a manner that it will serve as a feeder. The part of the compartment containing bulk grain shall be so confined as to prevent any of it getting into the empty part of the compartment. The bulk grain shall be trimmed tightly into one end of the compartment; the wings and beam spaces shall be filled; and as much grain as possible shall be stowed at the same end of the hatchway so as to ensure a sufficient supply for feeding purposes.

- (iii) Where the bulk grain is not sufficient to reach up into the hatchway the grain surface shall be trimmed level athwartships and the fore and aft slopes reduced considerably below the natural angle of repose and the surface of the grain secured by not less than two tiers of bagged grain or other suitable cargo tightly stowed. The bagged grain or other suitable cargo shall be supported on suitable platforms or on strong separation cloths laid over the whole surface of the bulk grain.
- (iv) The bags referred to in this clause shall be loosely filled and where used in construction of bulk heads shall be arranged with their mouths laid towards the bulk grain.

Grain Fittings

17. **General.**—All timber used for grain fittings shall be of good sound quality and of a type and grade which has been proved to be satisfactory for the intended use. The actual finished dimensions of the timber shall be in accordance with the requirements for the particular fitting specified in these rules. Ply-wood of an exterior type, bounded with waterproof glue and fitted in such a manner as to ensure that direction of the grain in the face plies is perpendicular to the supporting uprights or binders, may be used provided that its strength is equivalent to that of solid timber of the appropriate scantling.

18. **Shifting Boards.**—Every shifting board used for complying with any of the provisions of these rules shall be of the size, strength and specification set out in the Second Schedule.

19. **Uprights.**—Every upright used for complying with any of the provisions of these rules except those used in feeders to which requirements of clause (b) of paragraph 2 of the First Schedule apply, shall be of the size, strength and specification set out in the Fifth Schedule.

20. **Shores.**—Every wooden shore used for complying with any of the provisions of these rules except those used in feeders for which separate provisions are made in these rules shall be of the size, strength and specification set out in the Third Schedule.

21. **Feeding Holes.**—Where the depth of the hatchway and beams or side girders exceed 0.381 metres (381 millimetres) below the surface of the deck, feeding spaced approximately 0.610 metres (610 millimetres) apart shall be provided as near to deck level as practicable to allow the grain to flow through such beams or girders into the compartments. Such feeding holes shall be of 51 millimetres in diameter where the depth of the hatchway and beams or side girders exceeds 0.381 metres (381 millimetres) but does not exceed 0.457 metres (457 millimetres) and of 88 millimetres in diameter where such depth exceeds 0.457 metres (457 millimetres).

22. **Offences.**—Contravention of or failure to comply with any of the provisions of these rules by any person shall be deemed as failure to take all necessary and reasonable precautions for preventing the grain cargoes from shifting and it shall constitute an offence under sub-sections (1) and (2) of section 332 of the Act.

FIRST SCHEDULE

[See rules 2(iii) and 5(1)]

1. **Construction of Feeders and Bulkheads.**—Feeders and bulkheads shall be of sufficient strength to withstand the pressure of the grain and shall be grain tight.

2. **Construction of wood feeders and bulkheads.**—(1) The construction of wood feeders shall conform to either of the specifications and methods set out in subparagraphs (2) and (3) of this paragraph.

(2) In feeders constructed of horizontal boards and supported by uprights, the following provisions shall apply, namely;

- (a) **Board:**—The unsupported span of 63 millimetre boards shall not exceed the maximum permitted unsupported span specified in Tables 1 and 2 hereinafter set out for feeder sides and feeder end respec-

tively. The unsupported span for other board which shall not be less than 63 millimetres thick shall not exceed that obtained by modifying the span specified in the aforesaid Tables in direct proportion to the thickness of the board.

TABLE 1

Maximum permitted unsupported span of 63 millimetres horizontal boards on feeder sides in metres

Height of feeder in metres	Breadth of feeder in metres									
	1	2	3	4	5	6	7	8	9	10
2.5	3.35	2.70	2.39	2.21	2.09	2.00	1.93	1.88	1.83	1.79
3.0	3.26	2.59	2.28	2.10	1.99	1.90	1.83	1.78	1.73	1.69
3.5	3.20	2.51	2.20	2.02	1.91	1.82	1.75	1.70	1.66	1.62
4.0	3.14	2.43	2.13	1.95	1.84	1.75	1.68	1.63	1.59	1.55
4.5	3.11	2.37	2.07	1.89	1.78	1.69	1.63	1.58	1.54	1.50
5.0	3.08	2.31	2.02	1.84	1.73	1.64	1.58	1.53	1.49	1.45
5.5	3.05	2.27	1.98	1.80	1.69	1.60	1.54	1.49	1.45	1.41
6.0	3.05	2.26	1.95	1.77	1.66	1.57	1.51	1.46	1.42	1.38
6.5	3.05	2.25	1.93	1.74	1.63	1.54	1.48	1.43	1.39	1.35
7.0	3.05	2.25	1.92	1.73	1.60	1.51	1.45	1.40	1.36	1.32
7.5	3.05	2.25	1.91	1.72	1.58	1.49	1.43	1.38	1.34	1.30

NOTE:—At intermediate feeder heights or breadths, the maximum unsupported span of 63 millimetres boards shall be obtained by interpolation.

TABLE 2

Maximum permitted unsupported span of 63 millimetres horizontal boards on feeder ends in metres

Height of feeder in metres	Length of feeder in metres									
	1	2	3	4	5	6	7	8	9	10
2.5	3.75	3.21	3.18	3.18	3.18	3.18	3.18	3.18	3.18	3.18

7.0	3.25	2.63	2.23	2.01	1.87	1.82	1.82	1.82	1.82	1.82
7.5	3.25	2.63	2.21	1.98	1.82	1.76	1.76	1.76	1.76	1.76

NOTE:—At intermediate feeder heights or lengths the maximum unsupported span of 63 millimetre boards shall be obtained by interpolation.

(b) *Feeder uprights*:—The section modulus in cms^3 of uprights used to support the horizontal boards shall be not less than that given by the expression $79.0 \sqrt{h_1}$

in the case of wood uprights or the expression of $7.92 Psh_1$ in the case of steel uprights where—

P = Pressure load in tonnes per metre length of feeder side, or breadth of feeder end, on the portion of the feeder side or feeder end supported by the upright, obtained respectively from Tables 3 and 4 hereinafter set out;

s = Half the distance in metres between the nearest upright or support on each side;

h_1 = Unsupported height of upright in metres.

The scantlings of uprights at feeder corners shall be sufficient to withstand the combined stresses due to feeder side and end loading. Uprights constructed of metals other than steel shall be of equivalent strength to the upright referred to in the aforesaid Table 3.

TABLE 3

Pressure load in tonnes per meter length of feeder side

Height of feeder in metres	Breadth of feeder in metres.									
	1	2	3	4	5	6	7	8	9	10

5.0	2.75	3.88	4.57	4.73	4.77	4.77	4.77	4.77	4.77	4.77
5.5	3.11	4.48	5.39	5.69	5.76	5.76	5.76	5.76	5.76	5.76
6.0	3.50	5.14	6.20	6.65	6.85	6.88	6.88	6.88	6.88	6.88
6.5	3.86	5.75	7.05	7.69	7.97	8.07	8.07	8.07	8.07	8.07
7.0	4.19	6.37	7.90	8.76	9.14	9.35	9.35	9.35	9.35	9.35
7.5	4.52	6.99	8.74	9.82	10.34	10.69	10.69	10.69	10.69	10.69

NOTE :—At intermediate feeder heights or lengths the pressure load per metre length of feeder end shall be obtained by interpolation.

- (c) *Wire stays*:—The breaking strength in tonnes of horizontal wire stays used to support feeder side, or end uprights shall be not less than that given by the expression $3P_1S$ where—

P_1 —Pressure load in tonnes per metre length of feeder side, or breadth of feeder end, on the portion of feeder side or feeder end supported by the wire stays, obtained respectively from Tables 3 and 4 hereinbefore set out;

S —Half the distance in Metres between the nearest upright or support on each side

- (d) *Shores*.—The moment of inertia in (cms)⁴ of shores used to support feeder side or end uprights shall be not less than that given by the expression $27.00 \frac{P_1 S l^3}{\cos \theta}$ in the

case of wood shores or by the expression in 1.43 $\frac{P_1 S l^3}{\cos \theta}$ in the case of steel shores where—

P_1 —Pressure load in tonnes per metre length of feeder side, or breadth of feeder end on the portion of feeder side or feeder end supported by the shore obtained respectively from Tables 3 and 4 hereinbefore set out;

S —Half the distance in Metres between the nearest upright or support on each side;

l —Length of shore in metres; and

θ —Inclination of the shore to the horizontal which shall be not greater than 45 degrees

- (3) Where feeders are constructed of vertical boards, the following provision shall apply namely;

- (a) *Boards*:—The thickness of vertical boards in cms shall be not less than that given by the expression $1.527 Ph$, where—

P —Pressure load in tonne per metre length of feeder side or breadth of feeder end on the portion of feeder side or feeder end supported by the boards obtained respectively from Tables 3 and 4 hereinbefore set out; and

h_1 = Unsupported span of boards in Metres.

- (b) *Binders*.—The section modulus in centimetres³ of horizontal binders used to support the vertical boards shall not be less than that given by the expression $79.2 P_1 S_1^3$ in the case of wood binders or by the expression $7.92 P_1 S_1^3$ in the case of steel binders where—

P_1 = Pressure load in tonnes per metre length of feeder side or breadth of feeder end, on the portion of feeder side or feeder end supported by the binder, obtained respectively from Tables 3 and 4 hereinbefore set out. The vertical extent of the feeder supported by the binder shall be taken as half the distance between the nearest supports above and below the binder; and

S_1 = Unsupported length of binder in metres.

Binders constructed of metals other than steel shall be of equivalent strength to steel binders.

Where binders are formed by two planks or metal angle bars or other sections, one fitted on each side of the vertical boards, the effective section modulus shall be taken as 70 percent of the section modulus obtained by considering each plank or metal angle bar or other section to be fully effective about the neutral axis of the combined section.

- (c) *Wire stays*.—The breaking strength in tonnes of horizontal wire stays used to support binders shall not be less than that given by the expression $3P_1 S_1$, where—

P_1 = Pressure load in tonnes per metre length of feeder side or breadth of feeder end on the portion of feeder side or feeder end supported by the binder, obtained respectively from Tables 3 and 4 hereinbefore set out. The vertical extent of the feeder supported by the binder shall be taken as half the distance between the nearest supports above and below the binders;

S_1 = Half the distance in Metres between the nearest support on each side.

- (d) *Shores*.—The moment of inertia in centimetres⁴ of shores used to support binders shall

be not less than that given by the expression $\frac{27.00 P_1 S_1 I_1^3}{\cos \theta}$ in the case of wood

shores or by the expression $\frac{1.43 P_1 S_1 I_1^3}{\cos \theta}$ in the case of steel shore where—

P_1 and S_1 have the same meaning as given in sub-paragraph (c) of this paragraph;

θ = the inclination of the shore to the horizontal which shall be not greater than 45 degrees; and

I_1 = length of shore in metres.

SECOND SCHEDULE

[See rules 2 (vii) and 19]

Requirements for Shifting Boards

1. Shifting boards shall have a thickness of not less than 51 millimetres and shall be fitted grain tight and supported by uprights where necessary.

2. The maximum unsupported span of shifting boards of various thickness shall be as follows:—

Thickness	Maximum unsupported span
(i) 51 millimetres	244 centimetres.
(ii) 63 millimetres	335 centimetres.
(iii) 76 millimetres	396 centimetres.

3. The ends of all shifting boards shall be securely housed with a 76 millimetres minimum bearing length.

4. Where shifting boards of 63 millimetres or 76 millimetres are used, the boards may be butt-jointed in way of the uprights and at least 10 centimetres of board shall be supported. Where shifting boards of 51 millimetres are used, the joints shall overlap by at least 23 centimetres at the uprights.

5. Where no permanent grain tight divisions exist, wood filling pieces of the same thickness as the shifting boards shall be securely fitted grain tight between the beams.

THIRD SCHEDULE

[See rules 2 (viii) and 20]

Requirements for shores

1. Any wood shore except a shore used in feeders to which requirements of clause (d) of paragraph 2 of the First Schedule apply, shall be in single piece and shall be securely fixed at each end and heated against the permanent structure of the ship except that it shall bear directly against the side plating of the ship.

2. Subject to provisions of paragraphs 3 and 4 of this Schedule, the minimum size of every such wood shore shall be as follows:

Length of shores in metres,	Rectangular section in centimetres.	Diameter of circular section in centimetres.
(1) Not exceeding 3.05 metres	15.24 X 10.16	13.90
(2) Over 3.05 metres but not exceeding 4.88 metres	15.24 X 15.24	16.50
(3) Over 4.88 metres but not exceeding 7.32 metres.	15.24 X 15.24	17.78
(4) Over 6.10 metres but not exceeding 7.32 metres.	20.32 X 15.24	19.05
(5) Over 7.32 metres but not exceeding 8.54 metres.	20.32 X 15.24	20.32
(6) Over 8.54 metres.	20.32 X 15.24	21.59

Shores of 7.32 metres or more in length shall be securely bridged at approximately mid-length.

3. Where the vertical unsupported span of the upright is less than 243.84 centimetres or the horizontal distance between the uprights is less than 396.24 centimetres, the size of the shore may be reduced in proportion.

4. Where the angle of the shore to the horizontal exceeds 10 degrees the next larger shore to that required under the provisions of paragraph 2 of this Schedule shall be fitted, provided that in no case shall the angle between any shore and the horizontal exceed 45 degrees.

FOURTH SCHEDULE

[See rule 2 (ix)]

Requirements for Stays

1. Where stays are used in any grain fittings except in feeders for which separate provisions are made in sub-rule (1) of rule 1, the following provisions shall apply:—

- (a) the stays shall be fitted horizontally and shall be of 7.62 centimetres circumference galvanised flexible steel wire rope of 6x12 construction having a breaking strength of not less than 19.97 tonnes;

- (b) the rigging screws shall be of 3.17 centimetres diameter and shall be fitted in accessible positions;
- (c) the shackles shall be of 2.54 centimetres;
- (d) the eye bolts through the uprights shall be of 3.17 centimetres; and
- (e) either eye plates of 2.54 centimetres thickness shall be securely attached to the side stringers or frames, or 2.54 centimetre shackles passed through the frame.

2. Where shifting boards do not extent to the full depth of the hold, the shifting boards and their uprights shall be supported or stayed so as to be as efficient as shifting boards which do not extend to the full depth of the hold.

FIFTH SCHEDULE

[See rules 2(x) and 19]

Requirements for Uprights

1. The horizontal distances between the centres of the uprights except those used in feeders to which requirements of clause (b) of paragraph 2 of the First Schedule apply, shall be appropriate for the spans of boards set out in the Second Schedule. Such distances shall, in no case, be greater than 396 centimetres. Unless means are provided to prevent the ends uprights being dislodged from their sockets, the depth of housing at each end of each upright shall not be less than 76 millimetres. If an upright is not secured at the top, the upper most shore or stay shall be not more than 549 centimetres down from the deck or top of the upright.

2. The vertical unsupported span of an upright supported on each side by wood shores complying with the requirements of the Third Schedule or by wire stays complying with the requirements of the fourth Schedule shall be either the distance between the shores or stays or the distance from the ends of the upright to the nearest shore or stay whichever is greater.

3. Wood uprights shall consist of two planks, one on each side of the Shifting board. They shall be through bolted in a reeled pattern at alternate boards and shall conform with the scantlings given in the following Table 1, namely;

TABLE I

Scantling of double wood plank uprights in centimetres

Vertical unsupported span in metres	Horizontal distance between centres of uprights in metres

NOTE:—At intermediate vertical spans or horizontal distances the section modulus of steel uprights shall be obtained by interpolation.

5. Where uprights are formed by two angle bars or other sections, one fitted on each side of the shifting boards and through bolted at alternate boards, the effective section modulus shall be taken at 70 per cent of the section modulus obtained by considering each angle bar or section to be fully effective about the neutral axis of the combined section.

6. Uprights constructed of metals other than shall be of equivalent strength to the uprights referred to in Table II hereinbefore set out.

SIXTH SCHEDULE

[See rule 5(4)]

Methods of correction of metacentric height of feeders for free grain surface effects

The correction of metacentric height in cms. of each feeder for the effects of free grain surfaces shall be made in accordance with the following formula, namely;

$$\frac{15 \times LB^3}{C \times D}$$

Where—

L = Length of feeders in metres;

B = Breadth of feeders in metres;

C = Displacement of ship in tonnes; and

D = Stowage rate of the grain cargo in question in cubic metres per tonne.

SEVENTH SCHEDULE

(See rule 15)

Fair Weather and Foul Weather Seasons

For the purposes of these rules—

(1) The expression "fair weather season" or "fair weather" wherever it occurs shall mean—

(a) in the Arabian Sea, the season from the 1st of September to 31st of May; and

(b) in the Bay of Bengal, the season from the 1st of December to the 30th of April.

(2) The expression "foul weather season" or "foul weather" wherever it occurs shall mean—

(a) in the Arabian Sea, the season from the 1st of June to the 31st of August;

(b) in the Bay of Bengal, the season from the 1st of May to the 30th of November.

JASWANT SINGH, Under Secy

MINISTRY OF WORKS, HOUSING AND SUPPLY

(Department of Works & Housing)

New Delhi, the 24th December 1968

G.S.R. 189.—In exercise of the powers conferred by the proviso to article 309 of the Constitution, the President hereby makes the following rules regulating the method of recruitment to the posts of Stenographers in the Central Public Works Department (Subordinate Offices), namely:—

1. **Short title and commencement.**—(a) These rules may be called the Central Public Works Department (Subordinate Offices) Stenographers (Recruitment) Rules, 1968.

(b) They shall come into force with effect from the date of their publication in the Official Gazette.

2. **Application.**—These rules shall apply to the posts specified in column 1 of the Schedule annexed hereto.

3. **Number of posts, classification, scales of pay.**—The number of posts, their classification and the scales of pay attached thereto, shall be as specified in columns 2 to 4 of the said Schedule.

4. **Method of recruitment, age limit, other qualifications, etc.**—The method of recruitment, age limit, qualifications and other matters connected therewith shall be as specified in columns 5 to 13 of the said Schedule:

Provided that the upper age limit specified in Column 6 for direct recruits may be relaxed in the case of candidates belonging to any of the Scheduled Castes, Scheduled Tribes and other special categories of persons in accordance with the orders issued from time to time by the Central Government.

5. **Disqualification.**—(a) No person, who has more than one wife living or who having a spouse living, marries in any case in which such marriage is void by reason of its taking place during the life-time of such spouse, shall be eligible for appointment to any of the said posts; and

(b) no woman, whose marriage is void by reason of the husband having a wife living at the time of such marriage or who has married a person who has a wife living at the time of such marriage, shall be eligible for appointment to any of the said posts:

Provided that the Central Government may, if satisfied that there are special grounds for so doing, exempt any person from the operation of this rule.

6. **Power to relax.**—Where the Central Government is of opinion that it is necessary or expedient so to do, it may by order, and for reasons to be recorded in writing, relax any of the provisions of these rules with respect to any class or category of persons.

निर्माण, आवास तथा पूर्ति मंत्रालय

(पूर्ति विभाग)

नई दिल्ली, 1 जनवरी, 1969

जी० एस आर० 192:—संविधान के अनुच्छेद 309 के परन्तुक द्वारा प्रदत्त शक्तियों का प्रयोग करते हुए राष्ट्रपति, निर्माण, आवास और पूर्ति मंत्रालय, पूर्ति विभाग, नई दिल्ली में कतिपय वर्ग 3 के पदों पर भर्ती की पद्धति को विनियमित करने वाले निम्नलिखित नियम एतद्वारा बनाते हैं ; अर्थात् :—

1. सक्षिप्त नाम और प्रारम्भ —(i) ये नियम निर्माण, आवास तथा पूर्ति मंत्रालय, पूर्ति विभाग, नई दिल्ली (वर्ग 3 पद) भर्ती नियम, 1968 कहे जा सकेंगे ।

(ii) ये शासकीय राजपत्र में अपने प्रकाशन की तारीख को प्रवृत्त हो जाएंगे ।

2. पदों की संख्या, उनका वर्गीकरण और वेतनमान—पदों की संख्या, उनका वर्गीकरण और उनसे संलग्न वेतनमान वे होंगे जो एतद्वारा अनुसूची के स्तम्भ 2, 3 और 4 में विनिर्दिष्ट हैं ।

3. भर्ती की पद्धति, आयु-सीमा, अर्हताएं आदि—उक्त पदों पर भर्ती की पद्धति आयु-सीमा, अर्हताएं और तत्संसक्त अन्य बातें वे होंगी जो उक्त अनुसूची के स्तम्भ 5 से लेकर 13 तक में विनिर्दिष्ट हैं :

परन्तु सीधी भर्ती के लिए उक्त अनुसूची के स्तम्भ 6 में विनिर्दिष्ट उच्चतम आयु-सीमा अनुसूचित जातियों, अनुसूचित जनजातियों और अन्य विशेष व्यक्ति-प्रवर्गों के अभ्यर्थियों की दशा में, समय समय पर निकाले गए केन्द्रीय सरकार के आदेशों के अनुसार, शिथिल की जा सकेगी ।

4. निरर्हता—(i) कोई भी व्यक्ति, जिसकी एक से अधिक पत्नियां जीवित हैं या जो एक पत्नी के जीवित रहते हुए किसी ऐसी दशा में विवाह करता है जिसमें उस पत्नी के जीवन काल में किए जाने के कारण वह शून्य है, उक्त पदों में से किसी पर भी नियुक्ति का पात्र नहीं होगा, तथा

(ii) कोई भी स्त्री, जिसका विवाह इस कारण शून्य है कि उस विवाह के समय उसके पति की पत्नी जीवित थी या जिसने ऐसी व्यक्ति से विवाह किया है जिसकी पत्नी उस विवाह के समय जीवित थी, उक्त पदों में से किसी पर भी नियुक्ति का पात्र नहीं होगी ;

परन्तु यदि केन्द्रीय सरकार का समाधान हो जाता है कि किसी व्यक्ति को इस नियम के प्रवर्तन में छूट देने के विशेष आधार हैं तो वह आदेश दे सकेगी कि उसे छूट दी जाए ।

5. शिथिल करने की शक्ति—जहाँ कि केन्द्रीय सरकार की राय है कि ऐसा करना आवश्यक या समीचीन है, वहाँ ऐसे कारणों से जिन्हें लेखन द्वारा अभिलिखित किया जाएगा, आदेश द्वारा, पदों या व्यक्तियों के किसी वर्ग या प्रवर्ग के बारे में इन नियमों के उप-बन्धों में से किसी को भी शिथिल कर सकेगी।

(Department of Supply)

New Delhi, the 4th January 1969

G.S.R. 193.—In exercise of the powers conferred by the proviso to Article 309 of the Constitution, the President hereby makes the following rules regulating the method of recruitment to certain Class III posts in the Department of Supply, Ministry of Works, Housing and Supply, New Delhi, namely:—

1. **Short title and commencement.**—(i) These rules may be called the Department of Supply, Ministry of Works, Housing and Supply, New Delhi (Class III Posts) Recruitment Rules, 1968.

(ii) They shall come into force on the date of their publication in the Official Gazette.

2. **Number of posts, their classification and scales of pay.**—The number of posts, their classification and the scales of pay attached thereto shall be as specified in column 2, 3 and 4 of the Schedule annexed hereto.

3. **Method of recruitment, age limit, qualifications, etc.**—The method of recruitment to the said posts, age limit, qualifications and other matters connected therewith shall be as specified in columns 5 to 13 of the said Schedule.

Provided that the upper age limit specified in column 6 of the said Schedule for direct recruitment may be relaxed in the case of candidates belonging to the Scheduled Castes, Scheduled Tribes and other special categories of persons in accordance with the orders issued by the Central Government from time to time.

4. **Disqualification.**—(i) No person, who has more than one wife living or who having a spouse living, marries in any case in which such marriage is void by reasons of its taking place during the life time of such spouse, shall be eligible for appointment to any of the said posts; and

(ii) No woman, whose marriage is void by reason of the husband having a wife living at the time of such marriage, or who has married a person, who has a wife living at the time of such marriage, shall be eligible for appointment to any of the said posts:

Provided that the Central Government may, if satisfied that there are special grounds for so ordering exempt any person from the operation of this rule.

5. **Power to relax.**—Where the Central Government is of opinion that it is necessary or expedient so to do, it may, by order, for reasons to be recorded in writing, relax any of the provisions of these rules with respect to any class or category of posts or persons.

MINISTRY OF TOURISM AND CIVIL AVIATION

New Delhi, the 16th January 1969

G.S.R. 210.—In exercise of the powers conferred by the proviso to article 309 of the Constitution, the President hereby makes the following rules regulating the method of recruitment to Class I and Class II posts in the India Meteorological Department, Ministry of Tourism and Civil Aviation, namely:—

1. Short title and commencement.—(1) These rules may be called India Meteorological Department (Class I and Class II) Posts Recruitment Rules, 1968.

(2) They shall come into force from the date of their publication in the Official Gazette.

2. Application.—These rules shall apply to the posts specified in column 1 of the schedule hereto annexed.

3. Number of posts, classification and scale of pay.—The number of posts, their classification and the scales of pay attached thereto shall be as specified in columns 2 to 4 of the said Schedule.

4. Method of recruitment, age limit and other qualifications.—(1) The method of recruitment to the said posts, age limit, qualifications and other matters connected therewith, shall be as specified in columns 5 to 13 of the said Schedule :

Provided that the upper age limit specified in column 6 of the said Schedule may be relaxed in the case of Scheduled Castes, Scheduled Tribes and other special categories of persons in accordance with the general orders of the Central Government issued from time to time.

(2) Nothing contained in these rules regarding the age limit shall apply to Government servants.

5. Disqualifications.—(1) No person, who has more than one wife living or who, having, a spouse living, marries in any case in which such marriage is void by reason of its taking place during the life time of such spouse, shall be eligible for appointment to any of the said posts; and (ii) no woman, whose marriage is void by reason of the husband having a wife living at the time of such marriage or who has married a person who has a wife living at the time of such marriage, shall be eligible for appointment to any of the said posts:

Provided that the Central Government may, if satisfied that there are special grounds for so ordering, exempt any person from the operation of this rule.

6. Approved Service.—(1) Approved service in relation to any Grade means the period or periods of services in that Grade rendered after selection, according to prescribed procedure, for a long term appointment to that grade and includes any period or periods—

(a) taken into account for purposes of seniority in the case of those appointed at the initial constitution of the service;

(b) during which an officer would have held a duty post in that Grade but for being on leave or otherwise not being available for holding such posts.

(2) Whenever a minimum service limit has been prescribed for promotion, the condition of minimum approved service will not apply in the case of persons who are senior to those who fulfil this condition notwithstanding that they may not have rendered the required service in the grade.

7. Power to Relax.—Where the Central Government is of the opinion that it is necessary or expedient so to do, it may, by order, for reasons to be recorded in writing and in consultation with the Union Public Service Commission, relax any of the provisions of these rules with respect to any class or category of persons/posts.

SCHB

MINISTRY OF HEALTH, FAMILY PLANNING AND URBAN DEVELOPMENT

(Department of Family Planning)

New Delhi, the 21st January 1969

G.S.R. 211.—In exercise of the powers conferred by the proviso to article 309 of the Constitution, the President hereby makes the following rules regulating the method of recruitment to the posts of Senior Technical Assistant (MEM) and Publicity Assistant (MEM) in the Department of Family Planning, namely:—

1. Short title and commencement.—(1) These rules may be called the Department of Family Planning Senior Technical Assistant (MEM) and Publicity Assistant (MEM) Recruitment Rules, 1968.

(2) They shall come into force on the date of their publication in the Official Gazette.

2. Application.—These rules shall apply to the posts as specified in column 1 of the Schedule annexed hereto.

3. Number, classification and scale of pay.—The number of posts, its classification and the scale of pay attached thereto shall be as specified in columns 2 to 4 of the said Schedule.

4. Method of recruitment, age limit, qualifications, etc.—The method of recruitment, age limit, qualifications and other matters connected therewith shall be as specified in columns 5 to 13 of the Schedule aforesaid:

Provided that the upper age limit, specified for direct recruitment may be relaxed in the case of candidates belonging to Scheduled Castes, Scheduled Tribes,

DULE

Whether age and educational qualification prescribed for direct recruits will apply in the case of Promotee.	Period of Probation, if any.	Method of recruitment whether by direct recruitment or by Promotions or by deputation/transfer and percentage of the vacancies to be filled by various methods.	In case of recruitment by Promotion/ deputation/ transfer, grades from which promotion/deputation transfer to be made.	If a Departmental Promotion Committee exists, what is its composition.	Circumstances in which Union Public Service Commission is to be consulted in making recruitment.
